Contents of Volume 15

Agronomy

T. Tomita:

- Studies on vernalization and flowering substances IV. Bioassay on flowering activities of natural and chemical substances by the injection into the empty endospermic space of young winter wheat seedlings 1

N. Uchiyama and S. Shoji:

- Clay minerals of a diluvial soil in Hokkaido 131

Animal Husbandry

O. Itikawa, M. Itoh and T. Hoshino:

- Histochemical studies on the feed tissues in the ruminal fluids (Report I), especially on the alteration of the clover leaves put in the artificial ruminal fistula of the goats 13

O. Itikawa, S. Yoneya and K. Goto:

- Physico-histological studies on the physiological obesity of the meat pigs (Report II), especially on the comparison between the lesions of diabetes mellitus and characteristic alterations of the swine adipositis 39

O. Itikawa, T. Hoshino, K. Ishida and S. Yoneya:

- Physico-histological studies on the physiological obesity of the meat pigs (Report III), especially on the diminution of the occurrence of glycogen within the nuclei and cytoplasm of the zona reticularis, and on the appearance of the globoid bodies of epinephrine within the medullary cells in the adrenals of the pigs immunized with hog-cholera virus 61

T. Tsuda:

- Absorption of water from the rumen by the use of rumen pouch method 83

Y. Shoji, K. Miyazaki and M. Umezu:

- Studies on the metabolic conversion of volatile fatty acids in the rumen epithelium I. Ruminal arterio-venous differences of blood organic acids and lipids 91

R. Onodera, T. Tsuda and M. Umezu:

- Enzyme activities in the mucous membrane of digestive canal of the ruminants I. Activities of succinic dehydrogenase, glutamic dehydrogenase, alkaline phosphatase, ketone bodies formation enzymes 99

A. Tsuboi, N. Ojima and M. Umezu:

- Studies on the metabolism in the trypsin dispersed cell I. Oxygen consumption rate and relation between cell number, cell protein and DNA content in the trypsin dispersed cell of rat kidney 105

O. Itikawa, K. Ishida and S. Yoneya:

- Physico-histological studies on the physiological obesity of the meat pigs (Report IV),

| | |
|---|-----|
| especially on the production system of corticosteroids stained with NAKAO's HCl SbCl ₃ reaction within the cytoplasm of the zona reticularis in the adrenals | 147 |
| O. Itikawa, S. Yamamoto, A. Suzuki, H. Tamate, T. Hoshino, S. Yoneya and K. Goto: Physico-histological studies on the physiological obesity of the meat pigs (Report V), especially on the distribution of succinic dehydrogenase, alkaline and acid phosph- atase on the course of corticosteroid production in the swine adrenals | 183 |
| O. Itikawa, T. Hoshino and M. Itoh; Histochemical studies on the feed tissues in the ruminal fluids (Report II), especially on the alteration of the cornseed put in the artificial ruminal fistula of the goat | 211 |
| S. Yamamoto: Morphological studies on the sexual maturation in the male Japanese quail (<i>Coturnix coturnix Japonica</i>) I. Effect of continuous lightning and constant temperature on the testis growth | 241 |
| O. Itikawa, T. Hoshino, K. Ishida, H. Tamate, S. Yoneya and K. Goto: Physico-histological studies on the physiological obesity of the meat pigs (Report VI), especially on the mechanics of the pancreatic fat necrosis, fatty acid crystaliza- tion and focal pancreas necrosis | 295 |
| O. Itikawa, A. Itikawa, T. Hoshino and K. Goto: Physico-histological studies in the physiological obesity of the meat pigs, (Report VII), especially on the increase of the light cells in the intrafollicular parts, and the occurrence of the para-follicle of the swine thyroid | 319 |
| K. Gomi and M. Umezu: Effect of parotid saliva removal on the rumen and body constituents of the sheep | 337 |

Fisheries

| | |
|---|-----|
| M. Asano: Toxic lipids in the roe of a blenny, <i>Stichaeus grigorjewi</i> Herzenstein | 113 |
| M. Kayama and Y. Tsuchiya: Incorporation of C ¹⁴ -labeled acetate into lipid classes of liver oil by intact leopard shark | 259 |
| K. Mori, H. Tamate and T. Imai: Presence of Δ^5 - 3β -Hydroxysteroid dehydrogenase activity in the tissues of maturing oysters | 269 |
| A. Kamatani and C. Matsudaira: On the fertility of Matsushima Bay II. The mineralization of organic matter in marine mud | 279 |

Agricultural Chemistry

M. Tsutsumi and A. Fujiwara:

Biochemical studies of microelements in green plants VI. Effect of microelement deficiencies on the status of phosphorus fractions in barley plants 167

K. Chiba and A. Fujiwara:

Effect of nucleic acid materials on flowering I. Influences of ribonucleic acid on the flowering of radish 175

Y. Sonoda and A. Fujiwara:

Studies on the availability of mixed fertilizers I. Identification of the chemical constituents in low-analysis mixed fertilizers 345

Y. Sonoda and A. Fujiwara:

Studies on the availability of mixed fertilizers II. Chemical and physical properties of mixed fertilizers containing organic materials 359
